Khushi Gupta

📞 7049481506 — ✉ kguptaofficial25@gmail.com — ⌗ https://github.com/khushi07-code

Aspiring full-stack developer with a passion for building scalable web applications and solving real-world problems. Seeking opportunities to contribute to impactful tech projects while continuously expanding my skills in modern development frameworks.

Skills

- **Languages:** C, C++, Python, Java, JavaScript, HTML, CSS
- **Technologies:** ReactJs, Node.js,Express.js, Bootstrap
- **Databases:** MySQL, MongoDB
- **other:**API design ,RESTful APIs,Git GitHub

Education

Baderia Global Institute Of Engineering and Management   8.09 CGPA
BTech in Computer Science Engineering , 2026

DAV Gyanodaya Vidya Mandir   75 percentage
12th CBSE , 2022

Gyanodaya Vidya Mandir   67 percentage
10th CBSE , 2020

Projects

ApnaIntern – Full-Stack Internship/job Portal
- Built a full-stack internship job search platform modeled after Internshala, featuring job listings, profile creation, recruiter dashboards, and application tracking
- Implemented role-based access control and session management using Node.js, Express.js, and MongoDB to support secure and personalized user workflows.
- Designed responsive frontend interfaces using HTML, CSS, JavaScript, and Bootstrap, ensuring smooth navigation and usability across devices.

Wanderhub – Full-Stack Travel Booking Platform
- Developed a full-stack travel booking system inspired by Airbnb, enabling users to register, list properties, and manage bookings with secure authentication.
- Integrated Cloudinary for image uploads and Mapbox for geolocation-based property discovery, enhancing user experience and functionality.
- Applied MVC architecture and RESTful APIs using Node.js, Express.js, MongoDB, and EJS to ensure scalable backend logic and dynamic frontend rendering.

TalkStream –Real-Time Video Conferencing plateform
- Built with React, Socket.IO, JavaScript, CSS, and WebRTC, with a Node.js/Express backend for signaling and room management.
- Users can create or join rooms, share audio/video streams, chat in real time, and experience a responsive interface.
- Demonstrates how modern web technologies integrate to deliver a scalable, interactive, and collaborative communication platform

spotify clone
- Recreated the homepage of Spotify using HTML and CSS, focusing on pixel-perfect layout replication and responsive design principles.

Training And Workshop

AI for Students:Build Your Own Generative AI model Workshop
- certification Workshop of AI from NXTWAVE by AI expert and IIT Delhi alumnus,Mr.Trivikrama.

JavaScript ReactJs Training
- 15 day certification training with a coding thinker in college.
